9										
10										

## Thousand Cube

1. Carefully cut around the outline.
2. Fold on the heavy lines.
3. Assemble the cube with the flaps on the *outside*. No glue or tape is necessary.
4. If the flaps do not lie flat, pinch gently on the fold line.

## Box Pattern

To make the box, cut along the outside and fold on the other lines. Then tape the sides together.
